

CHRIS CAPIZZUTO

New York City, NY · chriszcodes@gmail.com · [Github](#) · [Portfolio Link](#)

Web developer skilled in React, Next.js, and JavaScript, focused on building responsive, data-driven applications

EDUCATION

Baruch College (CUNY) — B.B.A. in Digital Marketing, 2018–2020

Codesmith — Attended Full-Stack Web Development Program, 2021

Focused on full-stack JavaScript (React, Node.js, Next.js) through intensive pair programming and team-based projects

TECHNICAL SKILLS

- Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
 - Frameworks/Libraries: React, Next.js, Node.js
 - Styling: Tailwind CSS, JSX
 - Tools: Git/GitHub, npm, VS Code, REST APIs, MongoDB (basic), fly.io
-

PERSONAL PROJECTS [\[Portfolio\]](#)

Pokémon TCG Analyzer [\[Dragapultist\]](#) — *React, Next.js, TypeScript, Tailwind CSS*

- Solved a data utility problem for competitive Pokémon TCG players by giving practical value to their TCG Live export data
- Designed a responsive interface that lets users upload, visualize, and analyze game exports to uncover play patterns and performance trends
- Built React-based components for filtering, statistics, and matchup tracking to help players make informed deck and gameplay improvements
- Contributor and collaborator with *limitlesstcg.com*
[\[Github\]](#) | [\[Live Demo\]](#)

Fitness Calorie Tracker App [\[Elephit\]](#) — *React, Node.js, CSS3*

- *Addressed inefficiencies in MyFitnessPal's manual tracking system by automating calorie and macronutrient adjustments based on progress*
- *Built an app leveraging APIs similar to MyFitnessPal's to calculate and update calorie goals according to user weight fluctuations*
- *Combined efficient mathematical modeling with React state management for seamless, data-driven feedback and reduced manual input*
[\[Github\]](#) | [\[Live Demo\]](#)

DraftKings Daily Fantasy Optimizer [\[KingMaker\]](#) — *Next.js, TypeScript, Tailwind CSS*

- *Uses DraftKings NBA salary API data, calculates custom efficiency scores, and generates cost-optimized lineups*
 - *Includes a scrolling matchup ticker and interactive player cards to make lineup research fast and visual.*
 - *Enforces salary-cap and roster rules and displays a scrolling matchup ticker with interactive player cards*

ADDITIONAL EXPERIENCE

Chess Instructor & Mentor — Westchester/Bronx, New York

Nominated for the Andy Lerner Award for Excellence in Chess Education

- Taught critical thinking, logic, and strategy to students aged 9–12 in group and one-on-one settings
 - Developed structured lesson plans and adapted instruction to diverse learning styles
 - Strengthened communication and analytical reasoning skills applicable to collaborative software development
-

ADDITIONAL INFORMATION

- U.S. Citizen with authorization to work without sponsorship. Fluent in English and Spanish
- Built and deployed multiple full-stack and front-end web apps independently
- Interested in front-end engineering and full-stack software development
- Completed FreeCodeCamp Full Stack Development Certification (300+ hours)
